## Introduction

»Die kleine BRANDENBURG-STATISTIK 2016« (statistics for the federal state of Brandenburg 2016) offers information on the development of the federal state of Brandenburg based on the most important statistical results.

Key figures on demographic, economic, social, agricultural and political structures of Brandenburg are shown in Chapters 1 to 27. The results are compared to previous years. The brochure also contains information on the administrative districts (Chapter 28), data on Brandenburg's development since 1990 (Chapter 29) and figures on the region of Berlin/Brandenburg (Chapter 30).

On December 31, 2015 the area of the federal state Brandenburg covered 29,654 km<sup>2</sup>. The proportion of the agricultural area was 49 percent and 36 percent forest area.

In 2015 more than 19 thousand children were born alive in the state of Brandenburg, whilst the number of deaths was nearly 31 thousand persons. The excess of deaths over births of nearly 12 thousand people could be adjusted over through the registered migration surplus of more than 37 thousand people. The population therefore increased by nearly 27 thousand persons, resulting in an overall population size of 2.5 million residents by the end of 2015.

In 2015 1.24 million private households has been counted, with a share of 38 percent single person households. About 235 thousand families with children under the age of 18 lived in Brandenburg.

In the school year 2015/16 approximately 236 thousand pupils attended general education schools, including 10 percent at independent school agencies.

In the winter semester 2015/16 there were around 50 thousand students in Brandenburg, of which were 52 percent female students. 73 percent of the students were enrolled at universities. 40 percent were students in the fields of legal, economic, and social sciences faculties.

In 2015 more than 9 thousand physicians and nearly 2 thousand dentists practiced in Brandenburg. 56 hospitals with about 15 thousand beds in have an average stay of 7.9 days.

In 2015 there were approximately 11 thousand recipients of continual subsistence payment, more than 24 thousand recipients of basic security benefits in old age and in cases of reduced earning capacity and more than 36 thousand recipients of benefits from the 5th to 9th Chapter to the Sozialgesetzbuch XII (SGB XII).

The gross domestic product (GDP) in Brandenburg increased by 2.7 percent, compared to 1.6 percent in 2014.

In 2015 about 17 thousand business notifications in Brandenburg were recorded. Approximately the same numbers of businesses were deregistered during the year. Most of the changes were in the economic sector »Wholesale and retail trade; Repair of motor vehicles and motorcycles«, followed by the sector »Construction« and »Administrative and support service activities«.

More than 9 thousand dwellings were built in Brandenburg in 2015, 4 percent more than last year. 8 thousand new dwellings were built. Most of the dwellings are created in Potsdam and the districts of Havelland and Potsdam-Mittelmark.

In 2015 more than 12.5 million overnight stays in accommodation establishments are registered, more than in previous years. Also the total number of visitors increased slightly up to 4.6 million, whereas the average length of stay remained on a constant level of 2.7 days.

The last elections in the federal state of Brandenburg took place in 2014, both on the regional (Landtagswahl) and on the local level (Kommunalwahl). Additionally, the election of the members of the European Parliament had been held.

The Land Parliament of Brandenburg (Landtag) was composed by the Social Democratic Party of Germany (SPD), with 31.9 percent of secondary votes followed by the Christian Democratic Union (CDU) with 23.0 percent. The third-strongest political force was The Left (DIE LINKE) with 18.6 percent of all secondary votes.

»Die kleine BRANDENBURG-STATISTIK 2016« gives an initial overview of the data provided by official statistics. A similar brochure is available for the federal state of Berlin (»Die kleine BERLIN-STATISTIK 2016«). Both booklets are also published in German language. Comparative figures for the federal states can be found in the common statistics portal of the statistical offices of Germany and the federal states [www.statistikportal.de](http://www.statistikportal.de).

Other support .....	1000	23.9	25.9	30.9

The microcensus is a household survey conducted annually, comprising 1 percent of households. It provides information on the economic and social situation of the population.

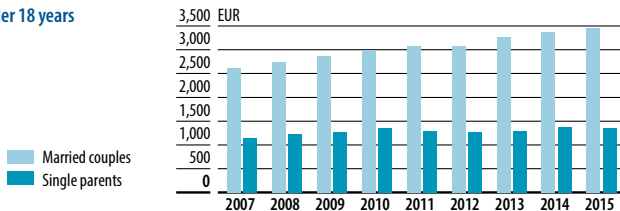

<sup>1</sup> Since 2009 only parental benefit

## 04 Households and Families

Every community of persons living together and forming an economic unit as well as persons who live alone and, nevertheless, manage for themselves are counted as a household (private household). A household may include relatives and persons who do not belong to the family as such (e.g. partners in life). Married couples with children as well as single parents and unmarried couples with their unmarried children living in the same household are counted as families.

	Unit	2007	2011	2015
<b>Households</b>				
<b>Total</b> .....	1000	1,242.9	1,238.6	1,244.0
by size of household

Serious accidents involving material damage and other intoxicated-driving accidents

**2** Incl. articulated lorries and tractors

**3** Incl. buses

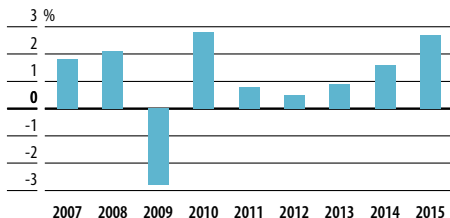

## 14 National Accounts

National accounts (VGR) are a statistical system for presenting a comprehensive, overall view of the economic activities of all business entities in Brandenburg. They are based on the European System of national accounts (ESA 2010) and the Classification of Industries (WZ 2008). At the centre of national accounts is the origin of the gross domestic product (GDP) as a measure of performance in Brandenburg.

	Unit	2007	2011	2015 <sup>1</sup>
<b>Gross domestic product</b>				
in current prices .....	EUR bn	53.0	57.7	65.3
<b>Gross value added</b>				
<b>all sectors</b> .....	EUR bn	47.7	51.9	58.8
Agriculture, forestry and fishing .....	EUR bn	0.8	0.9	0.8
Industry, excluding construction .....	EUR bn	9.8	10.6	11.9
Construction .....	EUR bn	2.7	3.4	4.4
Trade, transport, accommodation and food services, Information and communication .....	EUR bn	9.1	9.4	10.3
Financial, insurance and Business services, Real estate activities .....	EUR bn	12.3	13.3	14.8
Public and other services, education, health .....	EUR bn	12.9	14.4	16.6

### Gross domestic product<sup>2</sup> in current prices

rate of change in percent

provisional data

## 15 Business notification, Insolvencies

	Unit	2007	2011	2015
<b>Business notifications</b>				
Business registrations .....	number	23,555	20,521	17,282
including new establishments <sup>1</sup> .....	number	19,356	16,606	13,277
Business deregistrations .....	number	22,040	19,371	17,886
including closing downs <sup>2</sup> .....	number	17,958	15,863	14,492
<b>Insolvencies</b> .....	number	6,776	5,759	4,167
Enterprises .....	number	801	629	431
Other debtors .....	number	5,975	5,130	3,736
including consumer .....	number	4,563	4,102	3,121

The reports of traders are delivered monthly from the trading supervision departments. Information about insolvency of companies, consumers and other groups of borrowers provide the district courts.

**Insolvency proceedings by type of debtor**

<sup>1</sup> Establishment of businesses, without movings

<sup>2</sup> Without relocations; incl. closure of a branch office or dependent

branch (ie including "partial task of continuing operations")

## 16.1 Employment and compensation of employees

Persons in employment and their wages and salaries are determined within the scope of national account. The figures on the number of employed persons correspond to the workplace concept; that is, all employed persons who have their job in Brandenburg are taken into consideration. In the result for income creation the figure for employee earnings reflects all of the cash and non-cash benefits accrued to employees working in Brandenburg from work or other employment relationships.

	Unit	2007	2011	2015 <sup>1</sup>
<b>Persons engaged in economic activity</b>				
Persons engaged in economic activity .....	1000	1,050.5	1,083.6	1,083.0

The Federal Employment Agency (Bundesagentur für Arbeit) calculates the labour market data (here annual averages).

Unemployment rate

**1** Retroactive corrections due to conversion of the statistics of announced positions with the Federal Employment Agency

**2** Unemployed persons as % of all civilian employees (employees subject to social insurance and employees at a

low level, officials and unemployed persons additionally self-employed persons and family workers), as of 30 June on previous year

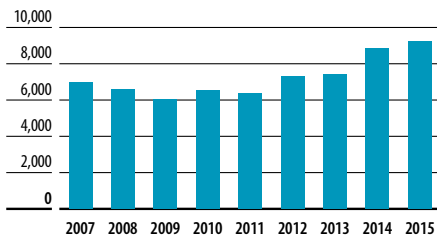

## 17 Construction, Housing

In the area of construction activity and housing construction activity statistics and the updating of the residential buildings and housing stock are located. The building and housing inventory is updated between the building and housing censuses, with the construction statistics. The actual results for 2015 are based on the final results of the building and housing census 2011.

	Unit	2007	2011	2015

The foreign trade statistics provide information to the movement of goods across the border (exports and imports) between Brandenburg and foreign countries. Data is derived from customs documents of importers and exporters with countries outside the EU (extra trade). A second data source is the statistical registrations of acquisitions and deliveries within the community according to the Value Added Tax Act (intra trade).

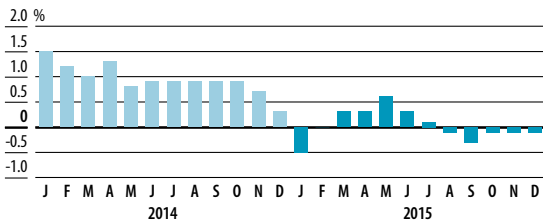

## 21 Consumer Prices

The consumer price index, shows the price development of all goods and services purchased by private households for consumption purposes, relative to a base year (here: 2010). The change in the consumer price index compared to the same month last year is also known as „inflation“.

Consumer price index for Brandenburg	Unit	2007	2011	2015
<b>Total cost of living</b> .....	index	96.7	101.9	106.3
Food and non-alcoholic beverages .....	index	94.7	103.2	111.4

The parties received parliamentary seats in accordance with their share of the valid second votes. A party which won more direct parliamentary seats than it was entitled to in accordance with its share of the second votes in the entire polling area was authorised to retain such seats won in addition to the number gained through proportional representation. The other parties received as many compensatory seats as were required for allocation of the parliamentary seats in accordance with the proportion of the second votes.
